Introduction

**NOTE:** Most SEL Recloser Control installations do not require a heater. The SEL relay modules are rated for operation from −40°C to +85°C (−40°F to +185°F). The LCD contrast is impaired below −20°C (−4°F). The SEL-351R batteries are rated from −40°C to +60°C (−40°F to +140°F). The SEL-651R batteries are rated from −40°C to +80°C (−40°F to +176°F).

The 100 W Natural Convection Electric Heater is an optional accessory offered for use inside SEL Recloser Controls. The heater is designed to lower the humidity in hot climates and keep the temperature of the enclosure from dropping in cold climates.
**Part Numbers**

SEL-351R Heater Accessory: 9250004  
SEL-651R Heater Accessory (Single Door): 9250586  
SEL-651R Heater Accessory (Dual Door): 9250585

Accessories are UL Component Recognized and CE Marked.

**Accessory Includes**

- 100 W Heater
- Thermostat
- Power/Ground Cables
- Mounting Hardware

**Application**

The heater is designed to minimize the effects of condensation, corrosion, and low temperatures in SEL enclosures. The heater operates at 120 Vac. The heater does not operate when the recloser control is operating on batteries only. This accessory includes a thermostat control with a setting range from 0° to +60°C (32° to +140°F).

**Warranty**

The heater is not included in the SEL 10-year warranty.
