SEL-700GT Intertie Protection Relay

Complete Intertie and Generator Protection

Field-configurable front panel, including display, LEDs, and pushbuttons.

Ethernet, serial, and expanded I/O options.

Field-upgradable design.

Distributed Generation Intertie

Provides IEEE 1547-compliant protection.
Protects electric grid and distributed generation.
Optional synchronous generator protection.

Integrated Automatic Synchronizer Option

Automatically adjusts generator voltage, speed, and phase angle to match line voltage.
Closes breaker when synchronized.

Substation-Hardened Ethernet

Modbus® TCP, SNTP, DNP3 LAN/WAN, Telnet, FTP, and IEC 61850.
Fiber or copper Ethernet communications port.
Withstands electrostatic air discharge of 15 kV.

Industry-Leading Quality, Reliability, and Service

-40°C to +85°C

Making Electric Power Safer, More Reliable, and More Economical®
### Functional Overview

**SEL-700GT Intertie Protection Relay**

- **59S**: Overvoltage (Phase, Ground, Neg. Seq.)
- **27**: Directional Power
- **251**: Frequency (Over, Under, Rate)
- **81**: Loss-of-Potential
- **32**: Overcurrent (Phase, Ground, Neg. Seq.)
- **50**: Undercurrent (Phase, Ground, Neg. Seq.)
- **51**: Time-Overcurrent (Phase, Ground, Neg. Seq.)
- **81**: Loss-of-Potential

**Key Features**

- **Sequential Events Recorder**
- **Event Reports**
- **Two Inputs and Three Outputs Standard**
- **I/O Expansion**—Additional Contact Inputs, Contact Outputs, Analog Inputs, Analog Outputs, and RTD Inputs
- **Battery-Backed Clock, IRIG-B Time Synchronization**
- **Instantaneous Metering, Demand Metering**
- **Off-Frequency Operation Time Accumulators**
- **Advanced SELogic® Control Equations**
- **IEEE C37.118 Synchrophasors**
- **Breaker Wear Monitor**
- **Event Messenger Compatible**
  * Optional

### Feature Overview

- **Use default messages, or program up to 32 custom display labels.**
- **Use default pushbuttons, or program your own pushbutton actions and labels.**
- **Front-panel LEDs can be programmed to indicate custom alarms.**
- **User-configurable label option.**

**Power supply options include:**
- 24–48 Vdc
- 110–250 Vdc
- 110–240 Vac

**Single or dual, copper or fiber-optic Ethernet port.**

**Positions for optional expansion cards.**

**Voltage and current inputs.**

**Fiber-optic communications.**

**Optional RTD inputs.**

**Class I Zone 2 Hazardous Location APPROVED**
**Complete Intertie and Generator Protection**

The SEL-700GT provides a complete intertie protection solution for distributed generation. Optional synchronous generator protection and synchronization provide complete generator and intertie protection in one compact and economical package.

The optional SEL-2664 Field Ground Module accurately detects field ground faults whether the generator is operating, stopped, or de-energized.

*The application shown includes optional generator protection and synchronism-check voltage input (VS). Ethernet and EIA-485 are optional. Also available are RTD and field ground module (SEL-2664) inputs (not shown).*
SEL-700GT Intertie Protection Relay

Easy to Set and Use

Use acSELERATOR QuickSet® SEL-5030 Software to Set, Monitor, and Control the SEL-700GT

- Save engineering time while keeping flexibility. Communicate with the SEL-700GT through any ASCII terminal, or use the acSELERATOR QuickSet graphical user interface.
- Develop settings offline with a menu-driven interface and completely documented help screens. Speed installation by copying existing settings files and modifying application-specific items.
- Simplify the settings procedure with rules-based architecture to automatically check interrelated settings. Out-of-range or conflicting settings are highlighted for correction.
- Use the acSELERATOR HMI synchroscope to view the real-time synchronization process.
- Initiate the generator synchronization process using an HMI pushbutton.

Use acSELERATOR Software to Retrieve and Display Event Reports Recorded by the SEL-700GT

- Display event report oscillograms. View each report as a plot of magnitude versus time. Select analog and digital points to build a custom display.
- Display phase and symmetrical component phasors. Display the phasor view of electrical data to better understand asymmetrical, three-phase faults. Build a custom plot using per-phase and symmetrical component sequence currents and voltages.
- Retrieve event reports using serial or Ethernet communications links.

Flexible Communication

Communications Media
- Ethernet 10/100BASE-T
- Ethernet 100BASE-FX
- Single or dual Ethernet ports
- EIA-232 serial
- EIA-485 serial
- Fiber-optic, serial multimode ST

Communications Protocols
- SEL ASCII
- Mirrored Bits communications
- IEC 61850
- Modbus RTU/TCP
- Simple Network Time Protocol (SNTP)
- DNP3 serial, LAN/WAN
- DeviceNet™
- Telnet
- FTP
- Synchrophasors (IEEE C37.118)

Mounting Options

Retrofit Replacement Kits
Replace existing generator protection with the SEL-700GT and the applicable mounting kit. These kits provide everything needed to replace many existing generator relays with the SEL-700GT.
No cutting or drilling is required when you use the optional mounting kits. Replacement of existing protection is quick and easy!
