

ANNUNCIATION AND NOTIFICATION OVERVIEW

**SEL-2523****Starting Price**

\$3,700 USD

selinc.com/products/2523

Provide local and remote notifications with the SEL-2523 Annunciator Panel, which includes programmable logic and up to four communications ports.

**SEL-2522****Starting Price**

\$2,100 USD

selinc.com/products/2522

Apply the SEL-2522 Alarm Panel with up to 36 inputs to easily view the status of alarms and operating events.

**SEL-2533****Starting Price**

\$1,500 USD

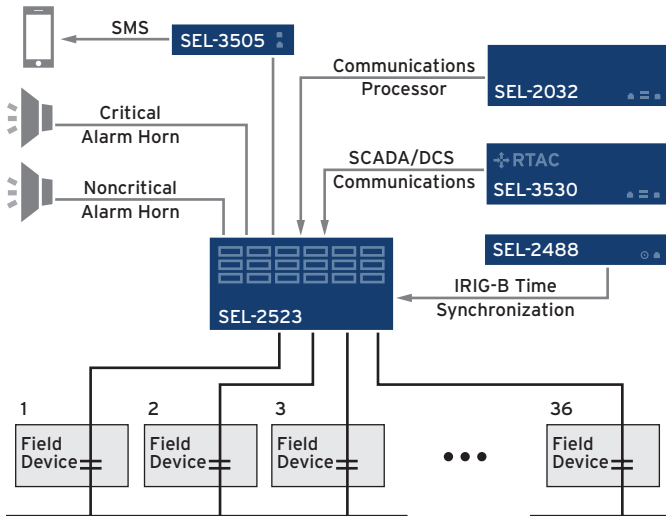

selinc.com/products/2533

Use the compact, ten-window SEL-2533 Annunciator to provide local and remote annunciation.

ANNUNCIATION AND NOTIFICATION APPLICATIONS

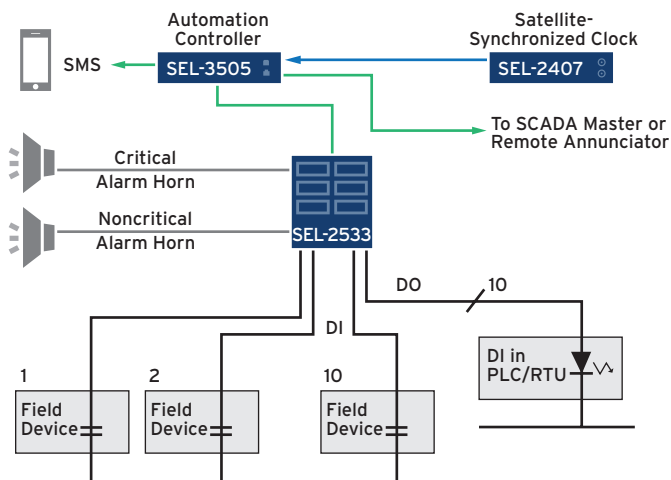

SYSTEM MONITORING

Receive station equipment status information through hardwired contacts or communications devices to provide a single-point alarm station. SEL annunciators can monitor equipment, report the status of any equipment that has failed, and notify local and remote personnel of current conditions.

REMOTE ALARM NOTIFICATION

Transmit important system data and alarm information by phone to on-call operators. SEL annunciators enable on-call responses to critical alarms for municipal and industrial sites.

AUTOMATED ALARMING

Eliminate control hardwiring with 40 remote control bits. With SELogic® control equations, you can program remote bits into custom control schemes, such as SCADA-type control operations (i.e., alarm triggers), acknowledgment, and device status indication.
